Description and how to apply

Forum is a dynamic, collaborative and diverse commercial set of Chambers. Our members practise across the range of commercial law including banking and financial services, professional negligence, property litigation and insolvency.

Forum is seeking to further expand our team to cope with our growing workload. Chambers ethos is that members work together in a supportive environment. We are looking for barristers who are enthusiastic, personable, and able to work as part of a team. Members work closely with our clerking team to employ a variety of strategies to develop and maintain a successful practice at the self-employed Bar.

Forum is proud of its record of recruiting barristers who do not fit out-dated stereotypes. At this time we are especially keen to consider applications from women and from ethnic minorities underrepresented at the Bar.

Third six pupils will be mentored throughout their pupillages and will receive ongoing feedback. Successful pupils will be taken on as tenants and will receive continuing support in the early years of practice.

To apply, please send a covering letter and CV to clerks@forumchambers.com.
